Energia will make light work of your lighting bills and there's no upfront cost

With no upfront costs, Energia manage the entire process so it's hassle free, no risk opportunity to secure significant cost saving now and into the future.

1. Survey and Energy Audit

Bespoke software provides room by room detail and consumption data

2. Pricing & Design

We will create a baseline of your current energy usage and calculate potential savings

3. Payment Options

Monthly bills show the balance of costs in your lighting project and the total paid to date

4. Installation & Recycling

Everything from installation to recycling is handled by Energia

Unrivalled Quality

Energia has partnered with Europe's leading lighting providers to ensure all of our lighting products meet the highest industry standards.
